

CALL FOR PAPERS

ICIPETA 2022
Jan 18-19, 2022
Bangkok, Thailand

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIPETA 2022 : International Conference on Industrial Power Engineering, Technology and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Industrial Power Engineering, Technology and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Industrial power engineering
Next generation industrial power engineering
Electric motors
Switchgear assemblies and captive power generation
Voltage surges, over voltages and grounding practices
Power capacitors

Bus systems
Selection, testing, controls and protection of electric motors
Switchgear assemblies and captive power generation
Voltage surges, over-voltages and grounding practices
Power capacitors
