

# CALL FOR PAPERS

**ICWSNIT 2022**  
**Jan 18-19, 2022**  
**Bangkok, Thailand**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWSNIT 2022 : International Conference on Wireless Sensor Networks and the Internet of Things is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Wireless Sensor Networks and the Internet of Things. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Development of sensor nodes and networks  
Sensor Circuits and Sensor devices  
Applications and Programming of Sensor Network  
Architectures, Protocols and Algorithms of Sensor Network  
Modeling and Simulation of Wireless Sensor Networks behavior  
Operating systems  
Wireless Sensor Networks Development  
Distributed data processing  
Communication/Standardization of communication protocols  
Time synchronization of sensor network components  
Distribution and auto-localization of sensor network components

Life-time/energy requirements/energy harvesting  
Reliability, Services, QoS and Fault Tolerance in Sensor Networks  
Security and Monitoring of Sensor Networks  
Legal and ethical aspects related to the integration of sensor networks  
Applications of Wireless Sensor Networks  
Military  
Healthcare  
Environment monitoring  
Transportation and Infrastructure  
Precision agriculture
