

CALL FOR PAPERS

ICAPST 2022
Jan 28-29, 2022
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAPST 2022 : International Conference on Acoustic Phonetics and Speech Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Acoustic Phonetics and Speech Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Acoustic phonetics

Acoustic aspects of speech sounds

Acoustic and auditory phonetics

Psycholinguistics and acoustic phonetics

Source-filter theory of speech production

Vocal-tract cavity properties and formant frequencies

Adaptive design of speech sound inventories

Acoustic phonetics

Acoustic phonetic sciences

Acoustic phonetics teaching and learning

Speech production

Speech acoustics

Speech perception

Speech prosody

Sound change

Phonology

Sociophonetics

Language typology
