

CALL FOR PAPERS

ICGMCA 2022
Jan 21-22, 2022
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGMCA 2022 : International Conference on Geopolymer Materials, Chemistry and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Geopolymer Materials, Chemistry and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Geopolymer materials: chemistry and applications

Geopolymers

Carbon footprint

Alkali-activated materials

Inorganic polymers

Waste valorization

Sustainable design

Innovative applications
