

CALL FOR PAPERS

ICZMPH 2022
Jan 25-26, 2022
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICZMPH 2022 : International Conference on Zoological Medicine and Public Health is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Zoological Medicine and Public Health. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Zoological medicine
Zoo and wildlife medicine
Animal science and veterinary medicine
Disease surveillance, biosecurity and emergency preparedness
Surveillance standards and procedures required to protect international trade
Establishment of adequate and achievable biosecurity systems
Emergency preparedness considerations for natural disaster(s) and foreign animal disease(s)
Production animal welfare and animal care
Animal transportation
Mass destruction of animals for disease control
Establishment of codes of practice for responsible animal care
The humane handling of livestock throughout the food chain
Humane handling of livestock in animal production systems

Self-regulation of farm animal welfare by industry
Judicious use of animal health products
