

CALL FOR PAPERS

ICIIE 2022
Jan 18-19, 2022
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIIE 2022 : International Conference on Industrial and Intelligent Information Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Industrial and Intelligent Information Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Industrial and Intelligent
Information Engineering
Neural networks and Applications
Machine Learning
Multimedia System and Applications
Speech Processing
Image and video Signal Processing
Computer Aided Network Design
Intelligent Robot

Intelligent Circuits and Systems
Embedded system and software
Artificial intelligence
Distributed and parallel
algorithms
Web and internet computing
IT policy and business management
Industry Application
Intelligent Systems Engineering
