

CALL FOR PAPERS

ICAMD 2022
Jan 11-12, 2022
Singapore, SG

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAMD 2022 : International Conference on Anthropometry and Musculoskeletal Disorders is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Anthropometry and Musculoskeletal Disorders. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Human factors and ergonomics
Human simulation and virtual environments
Anthropometry
Auditory ergonomics
Building and construction
Company case studies
Affective design
Ergonomics for children and educational environments
Ergonomics in design
Ergonomics in manufacturing

Gender and work
Healthcare ergonomics
