

CALL FOR PAPERS

ICDTT 2022
Jan 28-29, 2022
Sydney, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDTT 2022 : International Conference on Diabetes Treatment and Therapy is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Diabetes Treatment and Therapy. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Molecular Markers for both metabolic syndrome	Idiopathic
Inflammatory markers and Type 2 diabetes	Diabetes in children
Pharmacotherapy in treatment of diabetes	Prediabetes
New drug treatments and devices for diabetes	Immune Intervention diabetes
Development of insulin pump	Paediatric diabetes
Development of artificial Beta cells and pancreas	Monogenic Forms of Diabetes
Biostator: closed loop system	Neonatal Diabetes
Development of Insulin Pens and Novel Insulin Delivery technique	Diabetes and Metabolism
Cell encapsulation	Clinical Diabetes and Diagnostic Approaches
Diabetes: Type 1 and Type 2	Diabetes and its Complications
Gestational Hyperglycaemia and Diabetes	Diabetes Management
Autoimmune Diabetes Mellitus	Endocrinology: Patient-Oriented Case Management Discussions
Latent autoimmune diabetes of adults	Advanced Technologies for Treatment of Diabetes
