**Jan 28-29, 2022**  
**Sydney, Australia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNPCP 2022 : International Conference on Natural Product Chemistry and Pharmacognosy is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Natural Product Chemistry and Pharmacognosy. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Natural product chemistry  
Advances in natural product chemistry  
Natural product chemistry studies and engineering applications  
Carbohydrates  
Glucose  
The structure and configuration of glucose  
Anomeric forms of monosaccharides  
Glycosides  
Disaccharides  
Polysaccharides  
Lipids  
Fatty acids

Soaps and detergents  
Fats and oils  
Waxes  
Phospholipids  
Prostaglandins  
Terpenes  
Steroids  
Lipid soluble vitamins  
Biosynthetic mechanisms  
Proteins and amino acids  
A-amino acids  
Reactions of amino acids
