

CALL FOR PAPERS

ICBSA 2022
Jan 07-08, 2022
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBSA 2022 : International Conference on Biofertilizers and Sustainable Agriculture is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biofertilizers and Sustainable Agriculture. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biofertilizer technology
Biofertilizers and agriculture
Liquid biofertilizer and fermentation
Biofertilizers and mycorrhizae
Biofertilizers in organic agriculture
Biofertilizers and sustainability
Biofertilizers and biopesticides
Quality control of biofertilizers
Bacterial biofertilizers for sustainable crop production
Biofertilizers and microbial biofertilizers

Benefits of biofertilizers
Biotechnology of biofertilizers
Agricultural biotechnology and biofertilizer technology
Different types of biofertilizers
Mass production of biofertilizers
Application of biofertilizers
Constraints in biofertilizer technology
Nutritional quality of grains
Soil quality and soil enzyme activity
