

CALL FOR PAPERS

ICSET 2022
Jan 14-15, 2022
Zurich, Switzerland

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSET 2022 : International Conference on Sustainable Energy Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Sustainable Energy Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Bioenergy and Geoenery
Biomass and Eco-design
Demand Response
Electric Vehicle Integration
Electricity Storage
Energy Efficiency and Harvesting
Energy Efficiency in Utilization
Energy Harvesting
Energy in Transportation Systems
Energy Market, Management and Economics
Energy Resources for Portable Electronics
Energy Storage Systems
Engineering Education in Energy and Power Electronics

Environmental Issues
Envisioning the Future Energy System
Forecasting and Simulation Techniques
Fuel Cells Systems
Green Technology
Intelligent Energy, Power Transmission Distribution
Interconnects and Protection
Nanotechnology in Energy
New Devices and Circuits for Energy Systems
Objectives of Using Renewable Energy
Off-grid Isolated Energy Systems
Optimization of Conventional Energy Resources
Other Sustainable Energy Resources and System
