

# CALL FOR PAPERS

**ICWEBM 2022**  
**Jan 14-15, 2022**  
**Zurich, Switzerland**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWEBM 2022 : International Conference on Wildlife Ecology, Biodiversity and Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Wildlife Ecology, Biodiversity and Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Wildlife biology and management  
Urban and suburban wildlife  
management  
Education for the future  
Invasive species management  
Long-term research and monitoring  
Hunting as sustainable wildlife  
management  
Ecology, conservation and  
management of terrestrial mammals  
Ecology, conservation and  
management of aquatic mammals  
Ecology, conservation and  
management of birds  
Ecology, conservation and  
management of reptiles and  
amphibians  
Human dimension  
Conservation policy, ethics,  
education  
Wildlife behavior, ethology

Population dynamics  
Biometrics and new techniques  
Ecosystem management, community,  
landscape, habitat restoration  
Wildlife disease and toxicology  
Game and hunting  
Captive wildlife, endangered  
species recovery, ex situ  
management  
Wildlife disease  
Marine ecosystems health  
Emerging wildlife disease  
Disease and conservation  
Small mammals  
Host-pathogen dynamics  
Mycobacteria
