

CALL FOR PAPERS

ICWHRHM 2022
Feb 04-05, 2022
Bangkok, Thailand

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWHRHM 2022 : International Conference on Wildlife-Habitat Relationships and Habitat Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Wildlife-Habitat Relationships and Habitat Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Wildlife-habitat relationship
Wildlife-habitat models
Wildlife habitat relationships in forested ecosystems
Wildlife habitat relationships and biodiversity
Habitat management
Wildlife habitat assessment
Preservation and restoration
Wildlife and habitat management
Habitat conservation

Wildlife habitat
Habitat type and by habitat quality
Forest stewardship: wildlife
Woodlands and wildlife
Management practices for enhancing wildlife habitat
Seasonal habitats for wildlife
Forest finance
Farmlands and wildlife
