

# CALL FOR PAPERS

**ICCWEAA 2022**  
**Feb 08-09, 2022**  
**Amsterdam, The Netherlands**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCWEAA 2022 : International Conference on Computational Water, Energy and Environmental Engineering and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computational Water, Energy and Environmental Engineering and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Water, energy, and environmental artificial intelligence and evolution application  
Water, energy, and environmental bio-informatics application  
Water, energy, and environmental black box modeling systems  
Water, energy, and environmental control and management  
Water, energy, and environmental data acquisition and remote sensing  
Water, energy, and environmental decision support systems  
Water, energy, and environmental expert systems  
Water, energy, and environmental forecasting  
Water, energy, and environmental fuzzy logic application

Water, energy, and environmental genetic algorithms application  
Water, energy, and environmental information systems  
Water, energy, and environmental knowledge base and data hierarchy  
Water, energy, and environmental modeling and simulation  
Water, energy, and environmental neural networks application  
Water, energy, and environmental optimization  
Water, energy, and environmental software and visualization application  
Water, energy, and environmental statistics
