

# CALL FOR PAPERS

**ICEWAMMM 2022**  
**Feb 04-05, 2022**  
**Bangkok, Thailand**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEWAMMM 2022 : International Conference on Electrical Wiring Applications, Modern Materials and Methods is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Electrical Wiring Applications, Modern Materials and Methods. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Electrical wiring  
Electrical wiring, manufacturing  
and design  
Electrical wiring engineering and  
technology  
Wiring codes of practice and  
regulations  
Electrical wiring diagrams  
Color coding  
Wiring methods, techniques and  
strategies  
Cables and modern wiring materials

Copper and aluminum conductors  
Early wiring methods  
Paralleled installations  
Grounding and bonding conductors  
Nonferrous wiring methods  
Conductors of different systems  
Cables under buildings  
Protecting underground cables and  
conductors
