

CALL FOR PAPERS

ICESA 2022
Feb 15-16, 2022
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICESA 2022 : International Conference on Electrotechnical Systems and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Electrotechnical Systems and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Electrotechnics and
electrotechnical systems
Advances in electrotechnics
Electrotechnics and applications
Electrotechnics, systems and
devices
Electronics and electrical
engineering
Energy technologies and efficiency
Computer science applications
Circuits, devices and systems
Materials for electrotechnics
Power electronics and power drives
Electric vehicle technologies
Nanoelectromechanical system

Measuring technology and
instruments
Photonics and optoelectronics
Computers, software and
applications
Control and robotics
Power electronics and energy
systems
Communications and networking
Signal and multimedia processing
Biomedical and health informatics
Smart grids and renewable energy
Computation intelligence in
electrical engineering
Biomedical electronics and
bioinformatics
Distributed generation, fuel cells
and renewable energy systems
