

CALL FOR PAPERS

ICECSE 2022
Feb 18-19, 2022
Jeddah, Saudi Arabia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICECSE 2022 : International Conference on Electrical, Computer and Systems Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Electrical, Computer and Systems Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Computer and Information
Engineering
Bioinformatics and Biomedical
Applications
Computational Intelligence
Computer and Information
Technology
Computer Architectures and Digital
Systems
Computer Systems and Networks
Computer Vision and Pattern
Recognition
Data Engineering
Data Mining and Management
Distributed and Parallel Systems
Human-Computer Interaction
Internet and Electronic Commerce
Medical Informatics and Imaging

Network and System Security
Pattern Analysis and Recognition
Performance Modelling and Analysis
Software Engineering
Web Engineering
Electrical and Electronics
Engineering
Circuits and Systems
Communication Systems
Communications and Signal
Processing
Control Theory, Systems and
Applications
Electrical Machines and Drives
Electrical Power Systems
