

# CALL FOR PAPERS

**ICEMT 2022**  
**Feb 18-19, 2022**  
**Jeddah, Saudi Arabia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEMT 2022 : International Conference on Energy, Materials and Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Energy, Materials and Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Energy materials  
Nonferrous metal material  
Iron and steel  
High strength alloys  
Materials processing and handling  
Composites  
Micro/nano materials  
Ceramic  
Optical, electronic, magnetic materials  
Carbon based materials  
Metallurgical science  
Metallurgical fundamentals and techniques  
New functional materials

Building materials  
New energy materials  
Environmental friendly materials  
Earthquake materials and design  
Biomaterials  
Smart and intelligent materials  
Intelligent materials systems  
Polymeric materials  
Thin films  
Mechanical behavior and fracture  
Tool testing and evaluation of materials  
Processing technology for functional materials  
Function test and evaluation technology for material analysis
