

CALL FOR PAPERS

ICCPES 2022
Feb 11-12, 2022
Kuala Lumpur, Malaysia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCPES 2022 : International Conference on Cardiovascular Physiology in Exercise and Sport is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cardiovascular Physiology in Exercise and Sport. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Cardiovascular physiology in
exercise and sport
Cardiac activation
Cardiac output
Blood pressure
Vasomotor regulation in exercise
The vascular system
Local regulation of peripheral
vascular function

Measuring peripheral vascular
function
Pulmonary vascular function
Circulatory limits to exercise
Adverse circulatory effects of
exercise
Cardiovascular adaptations to
training
Effects of high altitude
