

CALL FOR PAPERS

ICGGF 2022
Feb 15-16, 2022
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGGF 2022 : International Conference on Glasses and Glass Fibers is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Glasses and Glass Fibers. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Glass fibers
Commercial and experimental glass fibers
General-purpose glass fibers
High strength glass fibers
Glass fiber chemical compositions
Glass melting and fiber forming
Glass fiber manufacturing and production
Recycling and reuse of glass fibers
Glass fiber reinforcement

Glass fibers for engineering applications
Glass fiber properties
Physical properties of glass fibers
Chemical resistance of glass fibers
Electrical properties of glass fibers
Thermal properties of glass fibers
Optical properties of glass fibers
Radiation properties of glass fibers
Mechanical properties of glass fibers
