

CALL FOR PAPERS

ICVCM 2022
Feb 01-02, 2022
Melbourne, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICVCM 2022 : International Conference on Veterinary Cardiology and Medicine is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Veterinary Cardiology and Medicine. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Veterinary cardiology
Techniques in clinical
cardiovascular medicine and
surgery
Etiopathogenesis, diagnosis, or
treatment of cardiovascular disease
in clinical medicine
Animal cardiovascular diseases
