

CALL FOR PAPERS

ICWPT 2022
Feb 01-02, 2022
Melbourne, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWPT 2022 : International Conference on Water Purification Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Water Purification Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Water pollution and aquaculture
Adaptation and mitigation
strategies
Purification of drinking-water
supplies
Water pollution and environmental
engineering
Treatment, disposal and discharge
of wastewater
Wastewater treatment technologies
Methods of monitoring water
quality
Modeling and measuring of water
pollution
Water purification technologies
Ground water pollution control
Water resources and quality
assessment
Hydrobiology and water pollution
Water management and planning

Water policies
Urban water management
Water quality
Flood risk
Hydraulic engineering
Purification of drinking-water
supplies
Treatment, disposal and discharge
of wastewater
Wastewater treatment technologies
Methods of monitoring water
quality
Modeling and measuring of water
pollution
Water purification technologies
Ground water pollution control
Water resources and quality
assessment
