

CALL FOR PAPERS

ICANR 2022
Feb 22-23, 2022
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICANR 2022 : International Conference on Advances in Nuclear Reactors is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Nuclear Reactors. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Advanced nuclear reactors
Advanced nuclear reactor systems
Advanced nuclear energy
Assessment of advanced nuclear reactor technologies
Large evolutionary light water reactors
Mid-sized light water reactors with passive safety features
High-temperature gas reactors

Liquid metal reactors
Molten salt reactors
Small modular reactors
Techno-economic assessment of small modular reactors
Advanced nuclear reactors and tritium impacts
New insights on modeling news dissemination on nuclear issues
