

CALL FOR PAPERS

ICBMMQC 2022
Feb 22-23, 2022
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBMMQC 2022 : International Conference on Biotherapeutic Medicines, Manufacturing and Quality Control is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biotherapeutic Medicines, Manufacturing and Quality Control. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biotherapeutics
Therapeutic modalities
Challenges for biotherapeutics
Bioanalytical overview
Advantages to biotherapeutics
Biotherapeutics drug development
Biotherapeutic medicines
Regulatory considerations
Chemistry, manufacturing and control
Drug substance
Quality, safety, and efficacy of biotherapeutic products
Manufacturing and quality control
Purification

Characterization
Stability, storage and expiry date
Synthetic immunology
MicroRNA biotherapeutics
Oncolytic virotherapy
Immunopharmacotherapy
Cystine-knot micro-proteins
Innovative therapies for serious diseases
In-vitro somatic hyper mutations
Glycobiology of antibodies
Synthetic protein biologics
Advances in antibody-drug conjugates
Stem cell therapy
