

# CALL FOR PAPERS

**ICEWPS 2022**  
**Feb 18-19, 2022**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEWPS 2022 : International Conference on Endangered Wildlife and Reproductive Strategies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Endangered Wildlife and Reproductive Strategies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Endangered and threatened wildlife  
Endangered wildlife species  
Protection, conservation, and recovery  
Endangered species management  
Protection of biological diversity  
Protection of endangered wildlife species  
Endangered wildlife resource management  
Social and perceptual factors in endangered species management  
Developing animal model systems for embryo technologies

Captive breeding  
Private farming  
The rise of human culpability  
The current global status of species  
The politics of extinction  
Economic values of threatened and endangered wildlife  
Low-coverage vaccination strategies for the conservation of endangered species  
Reproductive strategies for endangered wildlife
