

CALL FOR PAPERS

ICREE 2022
Feb 18-19, 2022
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICREE 2022 : International Conference on Renewable Energy and Electricity is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Renewable Energy and Electricity. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biomass for Electricity	Environmental Impacts of Renewable
Biomass industries	Energy Technologies
Clean energy production	Geothermal Energy
Climate change	Global warming
Economic development	Heating and cooling applications
Energy Efficiency and Renewable	Hydro power
Energy	Hydroelectric Power
Energy saving and efficiency	Hydrokinetic Energy
Energy saving in buildings	Local policy and land use
Energy, environment and sustainable	Low energy architecture
development	New perspectives of renewable
Environment and Renewable Energy	energy
Environmental and Energy Studies	Renewable Energy and Electricity
Environmental and Renewable Energy	Renewable Energy and Environmental
Environmental and Technology	Sustainability
Policies for Climate Change and	Renewable Energy and Environmental
Renewable Energy	Technologies
