

# CALL FOR PAPERS

**ICWEF 2022**  
**Feb 18-19, 2022**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWEF 2022 : International Conference on Weathering and Environmental Factors is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Weathering and Environmental Factors. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Weathering  
Weathering, erosion and landforms  
Environmental factors affecting  
rates of weathering  
Mechanisms of weathering  
Physical weathering  
Thermal stress  
Frost weathering  
Ocean waves  
Pressure release  
Salt-crystal growth  
Biological effects on mechanical  
weathering  
Chemical weathering

Dissolution and carbonation  
Hydration  
Hydrolysis of silicates and  
carbonates  
Oxidation  
Biological weathering  
Building weathering  
Properties of well-weathered soils  
Global chemical weathering of  
surficial rocks  
Weathering and soil formation  
Erosion, transportation and  
deposition  
Weathered volcanic rocks  
Weathering and sedimentary rocks
