

CALL FOR PAPERS

ICEMATSCR 2022
Feb 25-26, 2022
Sydney, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEMATSCR 2022 : International Conference on Epigenetic Modifications Associated with Temperature Stresses and Chromatin Remodeling is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Epigenetic Modifications Associated with Temperature Stresses and Chromatin Remodeling. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Epigenetics
DNA methylation
Histone modification
Chromatin remodeling
Temperature

Heat stress
Cold stress
Small non-coding RNA
Transgenerational memory
Polycomb
