

# CALL FOR PAPERS

**ICCM I 2022**  
**Feb 25-26, 2022**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCM I 2022 : International Conference on Computerized Medical Imaging is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computerized Medical Imaging. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Physics of medical imaging  
Image processing  
Computer-aided diagnosis  
Image-guided procedures, robotic interventions, and modeling  
Image perception, observer performance, and technology assessment  
Biomedical applications in molecular, structural, and functional imaging  
PACS and imaging informatics: next generation and innovations  
Ultrasonic imaging and tomography  
Digital pathology  
Pediatric Imaging  
Thoracic Imaging

Molecular imaging  
Musculoskeletal Imaging  
Computerized medical imaging and graphics  
Medical imaging  
Imaging techniques in ophthalmology  
Image guided radiation therapy  
Medical Terminology for Urologic Imaging  
Cardiovascular Imaging  
2D/3D/4D images Trends and Techniques  
Neuroimaging
