

# CALL FOR PAPERS

**ICFISSD 2022**  
**Feb 25-26, 2022**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFISSD 2022 : International Conference on Farm Irrigation Systems and System Design is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Farm Irrigation Systems and System Design. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Agricultural irrigation  
Agricultural irrigation systems  
Irrigation and drainage  
Agricultural structures and irrigation  
Irrigation canals and flumes  
Irrigation districts  
Irrigation engineering  
Irrigation water requirement  
Agricultural irrigation equipment  
Present extent  
Types of irrigation  
Surface irrigation  
Localized irrigation

Subsurface irrigation  
Perennial irrigation  
Intermittent-flow irrigation  
Continuous flow irrigation  
Farm irrigation efficiency  
Drip irrigation  
Irrigation using sprinkler systems  
Irrigation using center pivot  
Sub-irrigation  
Irrigation automatically,  
non-electric using buckets and ropes  
Irrigation using water condensed from humid air  
In-ground irrigation  
Water sources
