

CALL FOR PAPERS

ICLSE 2022
Feb 25-26, 2022
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICLSE 2022 : International Conference on Liability and Scientific Enquiry is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Liability and Scientific Enquiry. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Rules of evidence and admissibility
of scientific evidence in law and
litigation
Comparative tort law, e.g. strict
liability vs. negligence, product
liability standards
Application of specific sciences in
litigation (e.g. epidemiology)
Risk assessment and public policy
Legislation and how evidence shapes
the law-making process
Environmental law and policy

Ethics and standards in litigation
support
Expert witness norms and standards
Administrative proceedings
Scientific issues in international
trade and trade policy
Damages calculations
Digital evidence
