

# CALL FOR PAPERS

**ICWCHF 2022**  
**Feb 25-26, 2022**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWCHF 2022 : International Conference on Wildlife Corridors and Habitat Fragmentation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Wildlife Corridors and Habitat Fragmentation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Wildlife corridor	Worst effects of habitat fragmentation
Habitat corridor or green corridor	Costs
Habitat connecting wildlife populations separated by human activities or structures	Monitoring use
Negative effects of inbreeding	Design
Reduced genetic diversity	Examples
Re-establishment of populations	Major wildlife corridors
Purpose of wildlife corridor	Evaluation
Users	Negatives
Types of wildlife corridor	Positives
Regional wildlife corridor	Colonization
Sub-regional wildlife corridor	Migration
Local wildlife corridor	Interbreeding
