

# CALL FOR PAPERS

**ICCSG 2022**  
**Mar 08-09, 2022**  
**Bangkok, Thailand**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCSG 2022 : International Conference on Cybersecurity of Smart Grids is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cybersecurity of Smart Grids. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Cybersecurity for smart grid systems  
Cybersecurity standards  
Fast-changing cyber-threats  
Smart grid cyber security specificities  
Cybersecurity by design  
The digitalization of the energy systems  
The importance of cybersecurity

Cyber security culture  
Control system security  
Smart grid applications  
Smart metering cyber security  
Communication network architecture in the smart grid  
Communication protocols for power systems  
Network security threats in the smart grid
