

CALL FOR PAPERS

ICFSS 2022
Mar 08-09, 2022
Bangkok, Thailand

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFSS 2022 : International Conference on Flight Safety and Security is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Flight Safety and Security. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Flight safety and safety control
Human factors in maintenance
Maintenance errors and mitigating strategies
Fatigue risk management for maintenance
Quality control in maintenance
Maintenance training issues
Safety leadership in maintenance
Transition to electronic records
Authenticity of electronic records

3d printing in aviation
Repair of composite materials
Quality and safety management systems
Approach and landing accidents
Electronic flight bags
Cyber security for flight
Safety skills, knowledge, and analysis
Higher-risk operations
Turboprop operations
