

CALL FOR PAPERS

ICIAD 2022
Mar 08-09, 2022
Bangkok, Thailand

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIAD 2022 : International Conference on Innovative Architectural Design is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Innovative Architectural Design. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Rationalism and universalism	Digital fabrication and robotic craft
Irrationalism and Intuition	Metaphors, symbols, geometry
Regionalism and Contextuality	Design Computation and Shape Grammar
Possible methodologies of design and spatial analysis of singular buildings	Foldable Plate and Origami
Function, building program and building types	Philosophies and space and place
Human behavior and "Users"	The language and semiotics of space and place
Ancient and traditional conception of design and its practice	Aesthetics of form
Modern Movements and design methods: From Expressionism to Brutalism	Typologies
Critical issues in the post-modern and contemporary discourse	Gesamtkunstwerk and totality of the work of art
Digital Age and Computer Aided Design	Lived spaces and the architecture of identity
Simulation, collaboration and generative tools	Haunted spaces/places and non-spaces
Human/Computer Interfaces	Authenticity and the reproduction/representation of place in the creative arts
Responsive environments; distributed controls, sensing and feedback	Future of the cities and architecture
