

CALL FOR PAPERS

ICMSSA 2022
Mar 08-09, 2022
Bangkok, Thailand

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMSSA 2022 : International Conference on Multivariate Statistics and Stochastic Analysis is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Multivariate Statistics and Stochastic Analysis. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Multivariate statistics
Data reduction, description, and estimation
Multivariate normal distribution
Copula modeling
Functional data analysis
Graphical modeling

High-dimensional data analysis
Image analysis
Multivariate extreme-value theory
Sparse modeling
Spatial statistics
