

CALL FOR PAPERS

ICCAD 2022
Mar 22-23, 2022
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCAD 2022 : International Conference on Control Algorithms and Dynamics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Control Algorithms and Dynamics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Control algorithms
Digital control algorithms
Complex control algorithms
Adaptive systems and control
Control systems
Termination detection and approximation
Leader election

Echo algorithm
Consistent snapshot
The proportional integral derivative (PID) controller
Programming and deployment options
Advanced control design techniques
High performance embedded control
LabVIEW software and the PID controller
