

CALL FOR PAPERS

ICMIME 2022
Mar 15-16, 2022
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMIME 2022 : International Conference on Mechanical, Industrial, and Manufacturing Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Mechanical, Industrial, and Manufacturing Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Manufacturing Engineering
Aerospace Engineering
Aerospace Systems and Technology
Aeronautical Engineering
Computational Fluid Dynamics
Industrial Engineering
Mechanical Engineering
Design and Manufacturing
Life Cycle Design of Products
Design for Environment
Design for Manufacturing and Assembly
Concurrent Engineering
PDM, PLM, Collaborative Product Design & Commerce

Condition Monitoring and Vibration Analysis
Reliability Engineering
Industrial Tribology
Applications of AI Techniques in Design and Manufacturing
Modeling & Optimization of Systems and Processes
Automation and Robotics
Non-Traditional Manufacturing
Advanced Metal Forming, Welding & Casting techniques
Agile & Lean Manufacturing
Logistics and SCM
CAD/CAM/FMS/CIMS
Reverse Engineering, RP/RT
Micro-Machining, Nano- Technology & Smart Materials
