

# CALL FOR PAPERS

**ICBNMGBABBSA 2022**  
**Mar 11-12, 2022**  
**Miami, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBNMGBABBSA 2022 : International Conference on Bioengineering Nano and Micro-Gels for Biomedical Applications and Bead-Based Suspension Assays is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Bioengineering Nano and Micro-Gels for Biomedical Applications and Bead-Based Suspension Assays. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Liquid biopsy  
Bead-based suspension assays  
Molecularly imprinted polymers  
Oligonucleotide detection  
MicroTAS, LOC and TOC

Diagnostic assays  
Nanomedicine  
Theranostics  
Tissue engineering
