

# CALL FOR PAPERS

**ICBSTA 2022**  
**Mar 11-12, 2022**  
**Miami, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBSTA 2022 : International Conference on Bioengineering for Smart Technologies and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Bioengineering for Smart Technologies and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Bio-signal processing  
Biomedical image processing  
Biometrics  
Bio-measurement and instrumentation  
Bionics  
Bio-inspired systems  
Bioinformatics  
Bio-devices and biosensors  
Computer vision and computer graphics for bioengineering

Bio-inspired systems  
Artificial intelligence  
Affective computing  
Internet of things for bioengineering  
E-health  
Telemedicine/smart medical devices  
Smart clothes and wearable technologies  
Smart systems and mobile smart Applications for bioengineering
