

CALL FOR PAPERS

ICNFRTOGT 2022
Mar 11-12, 2022
Miami, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNFRTOGT 2022 : International Conference on Nuclear Fuel Reprocessing Technologies and Off-Gas Treatment is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nuclear Fuel Reprocessing Technologies and Off-Gas Treatment. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nuclear fuel reprocessing technologies

Nuclear fuel reprocessing

Radioactive waste treatment

Separation techniques for nuclear fuel reprocessing

Head-end processes

Mechanical preparations

Voloxidation

Separation processes

Off-gas treatment

Off-gas recovery processes

Spent fuel reprocessing options

Separated components and disposition

Separation technologies

Water and organic solvents

Volatilization in isolation

Fluoride volatility

Electrochemical methods

Obsolete methods

Chloride volatility and solubility

Radioanalytical separations

Economics

Pyroprocessing

Electrolysis
