

CALL FOR PAPERS

ICSESEA 2022
Mar 04-05, 2022
Rio de Janeiro, Brazil

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSESEA 2022 : International Conference on Sustainable Energy Science and Engineering Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Sustainable Energy Science and Engineering Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Sustainable energy science
- Sustainable energy policy and procedures
- Energy and sustainable development
- Renewable and sustainable energy
- Energy and environment
- Optimization methods applied to renewable and sustainable energy
- Energy, environment and sustainable development
- Sustainable energy development
- Energy utilization
- Turbomachinery and transformation of energy systems
- Environmental and socio-economic issues
- Sustainable energy utilization
- Transformation of energy systems
- Renewable energy systems
- Renewable energy technology
- Sustainable power generation and distribution
- Solar power
- Biomass energy
- Hydroelectricity
- Wind energy
- Hydrogen energy
- Tidal and wave energy
- Geothermal power
- Energy conservation
- Bioenergy conversion methods
- Bioenergy applications
