

CALL FOR PAPERS

ICNCCCT 2022
Mar 04-05, 2022
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNCCCT 2022 : International Conference on Network, Control, Communication and Computing Technologies is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Network, Control, Communication and Computing Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Software Engineering	Information Privacy and Security
Agile Software Development	Process Modeling
Architecture and Design	Query Processing and Optimization
Aspect-Oriented	Programming Languages
Cloud-Computing	Refactoring
Data Mining Systems	Requirements Engineering
Dependability, Safety, and Reliability	Search-Based Software Engineering
Development Tools and Environments	Software Economics and Metrics
Databases	Software Evolution and Maintenance
Data Warehousing Systems	Software Reuse
Empirical Software Engineering	Software Testing and Analysis
Formal Methods	Software Visualization
Human-Computer Interaction
