

# CALL FOR PAPERS

**ICAASCC 2022**  
**Mar 08-09, 2022**  
**Bangkok, Thailand**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAASCC 2022 : International Conference on Agricultural Adaptation Strategies to Climate Change is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Agricultural Adaptation Strategies to Climate Change. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Agricultural adaptation to climate change  
Agricultural adaptation strategies to climate change impacts  
Crop adaptation strategies  
Livestock adaptation strategies  
Modelling climate change and its application to agriculture  
Climate change and increased agricultural uncertainty  
Abiotic stress  
Effects of CO<sub>2</sub> on plant growth

Food security in developing countries  
Impacts of climate change on nutrition, quality and resource use efficiency  
Improving the efficiency of the food chain  
Plant-microbe interactions and climate change  
Reducing the impact of agriculture on climate change  
Innovative breeding practices  
New crops for a new climate
