

CALL FOR PAPERS

ICCBCSTA 2022
Mar 08-09, 2022
Bangkok, Thailand

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCBCSTA 2022 : International Conference on Cloud-Based Communication Systems, Technologies and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cloud-Based Communication Systems, Technologies and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Cloud communications
Cloud based communications systems
and applications
Cloud communications process
enhancement techniques
Cloud-based communication
technology
Network based communications
interfaces and architectures
Advantages and disadvantages of
cloud communications
Cloud communications in business
applications
Distributed adaptive development
environment
Communication technologies
Knowledge management

Cloud computing
Collaborative processes
Knowledge sharing
Data centers
Mobile cloud computing
Cloud service-level agreements
Quality of service in the cloud
Cloud performance management
Cloud security
