

CALL FOR PAPERS

ICCSG 2022
Mar 08-09, 2022
Bangkok, Thailand

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCSG 2022 : International Conference on Cybersecurity of Smart Grids is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cybersecurity of Smart Grids. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Cybersecurity for smart grid systems
Cybersecurity standards
Fast-changing cyber-threats
Smart grid cyber security specificities
Cybersecurity by design
The digitalization of the energy systems
The importance of cybersecurity

Cyber security culture
Control system security
Smart grid applications
Smart metering cyber security
Communication network architecture in the smart grid
Communication protocols for power systems
Network security threats in the smart grid
