

CALL FOR PAPERS

ICENH 2022
Mar 08-09, 2022
Bangkok, Thailand

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICENH 2022 : International Conference on Engineering for Natural Hazards is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Engineering for Natural Hazards. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- | | |
|--|------------------------|
| Natural Hazards | Sinkholes |
| Earth System | Volcanic eruption |
| Risk assessment | Meteorological hazards |
| Geological sequestration of greenhouse gases | Blizzard |
| Geologic processes affecting Earth's climate | Drought |
| Climate change and global warming | Hailstorm |
| Geological hazards | Heat wave |
| Contamination | Cyclonic storm |
| Avalanche | Ice storm |
| Earthquake | Tornado |
| Coastal erosion | Climate change |
| Lahar | Geomagnetic storm |
| Landslide | Water spout |
