

# CALL FOR PAPERS

**ICOOC 2022**  
**Mar 08-09, 2022**  
**Bangkok, Thailand**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICOOC 2022 : International Conference on Oceanography and Ocean Currents is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Oceanography and Ocean Currents. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Oceanography  
Marine management  
History  
Modern oceanography  
Ocean acidification  
Ocean currents  
Ocean heat content  
Weather  
Sea life  
Coastal processes  
Atmospheric sciences  
Coastal sciences  
Meteorology

Climatology  
Marine biodiversity  
Marine mammals  
Chemical composition of the ocean water  
The geology associated with the ocean  
The physical movements of the ocean water  
Waves and currents and tides  
Effects of climate change, overpopulation and overfishing  
Marine ecosystems and their inhabitants  
Ocean's floor  
Volcanic activity and its relation to the deep oceanic trenches  
Acoustical oceanography  
Biological oceanography
