

CALL FOR PAPERS

ICPCC 2022
Mar 08-09, 2022
Bangkok, Thailand

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPCC 2022 : International Conference on Polymer Chemistry and Catalysis is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Polymer Chemistry and Catalysis. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Polymer synthesis and polymerization
Recent advances in polymer chemistry
Characterization of polymers
Synthetic polymers
Macromolecular polymeric structure
Functional polymers
Polymers for catalysis and energy applications
Bio catalysis in polymer chemistry
Bio-related medical polymers

Polymers in biochemistry
Polymers for separation
Polymer technology
Marketing of polymers
Biochemical degradation of polymers
Polymer therapeutics: concepts and applications
Polymer nanotechnology
Solid waste management of polymers
