CALL FOR PAPERS

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFTA 2022 : International Conference on Flight Testing and Analysis is
the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Flight Testing and Analysis. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Aerodynamic Models
Aeroperformance Analysis Technique
Aircraft Flight Flutter Testing
Autoland Performance
Autoland Testing
Automatic Wing Camber Control
Flight Dynamics and Control
Facility
Flight Management System
Flight Stability
Flight Test Engineering
Flight Test Experience

Flight Test Imagery
Flight Test Program
GPS
Helicopter Aerobatic Flight
Joint Tactical Information
Distribution System
Meteorological Parameters
Mobile Research Flight Test
Monitoring System for Research
Aircraft
National Space Test Range
Pilot Workload Assessment
Real-Time Aerodynamic Analysis
System
